- Role: Improvement Lead
- Date joined eWater: December 2021
- What eWater means to me:

“eWater offers an incredible opportunity to contribute to tackling one of the world’s biggest problems- the global water crisis. We offer a sustainable service allowing thousands of people long term and convenient access to water. This is a huge enabler for allowing more young people to access education, closing the gender equality gap and allowing people to live longer and healthier lives.”
